Manufacturer's Declaration REACH, Art. 33

Document No.

QM200622B

Subject

Regulation (EC) No 1907/2006, Article 33
Duty to communicate information on substances in articles

Statement

The EU has established a system for the registration, evaluation, authorization and restriction of chemical substances under the REACH Regulation.

The purpose of this Regulation is to ensure a high level of protection of human health and the environment, including the promotion of alternative methods for assessment of hazards of substances, as well as the free circulation of substances on the internal market while enhancing competitiveness and innovation.

Herewith we confirm that we apply lead (Pb), CAS 7439-92-1, EG 231-100-4, as alloying component with a percentage of more than 0.1 w/w in several of our products.

These alloys are used in inner parts of our products. During normal conditions of use the lead will not be released. We therefore exclude direct contact with the contained lead during normal use of our products.

Berlin, June 22, 2020

Dr. Edgar Ballin
Quality Management Representative
